# CABERNET SAUVIGNON

## LA FAMILLE

*This is an expressive Cabernet Sauvignon that keeps the drinker interested from the first sniff to the last drop of the bottle. With a deep ruby colour and a bouquet of fruity and savoury aromas, the complexity of this wine is something to behold. Aromas of dark berries, plums, mulberry and blackberries are matched perfectly with secondary aromas of oak and vanilla spice and subtle notes of fruit cake. The tannin structure and acidity on the palate expresses the fruit on the mid palate and finish in an explosion of flavour.*

### APPEARANCE

A rich ruby coloured wine with an alluring slightly purple rim.

### NOSE

This pure expression of a Cabernet Sauvignon has enticing aromas of mulberry, plums and black berry followed by rich aromas of oak and leather. To make the bouquet even more enjoyable the aromas develop into trademark Mischa flavours of sweet and sour cherry, with subtle hints of vanilla and fruitcake. To swirl a glass of this Cab is to explore the depth of ones senses.

### AGEING POTENTIAL

The optimum cellar aging for this wine would be 3 to 5 years, but it can be enjoyed as soon as the need arises.

### FOOD PAIRING

Try the Cabernet Sauvignon with a charred gruyere burger, creamy pasta, or roast lamb.

### WINE MAKING INFORMATION

Alcohol: 13,6% v/v  
Residual Sugar: 2.6 g/L  
TA: 5.8 g/L  
pH: 3.54  
VA: 0.64

### PALATE

The grippy and wholesome tannins of this wine is a pleasure by itself. This well-balanced structure develops right from the get-go, through the mid palate and right into a long and lingering finish full of fruit and slight spice.

Flavours of plum, dried fruit and subtle oak notes are accompanied by a fresh acidity that will keep even the most seasoned drinker interested right to the bottom of the bottle.

### VITICULTURE INFORMATION

Cabernet Sauvignon is known as the king of grapes. Hailing from the Bordeaux region of France, Cabernet Sauvignon is the most widely planted grape variety in the world. Small, thick-skinned berries allow for concentrated, deeply coloured wines and also resistance to a wide range of vineyard diseases. On Mischa we select only the best grapes from our vineyards, thus creating only the best wines possible. Our Cabernet Sauvignon is left to mature to perfection using tight grained French and American oak.

Yields per Hectare :  
12 Tons per hectare

Cases produced:  
600 cases of 6 produced

Appellation:  
Wine of Origin, Western Cape
